

How to align with PCI security compliance management?

1. In the **Compliance Management** dashboard, click on **Benchmarks**.

2. Now, click on **Create New Benchmark**.

The screenshot shows the 'Create New Benchmark' page in the SanerNow dashboard. It displays a table of existing benchmarks with columns for Name, Applied Groups, Date, and Edit. The table lists various benchmarks such as CentOS7_CIS_benchmark, CIS_ubuntu_18, custom, GEN_UBUNTU18, Test, win_10_gen_comp, win2k12_r2-NIST-800-171, and win_10_PCI_benchmark, each with its applied group and creation date.

Name	Applied Groups	Date	Edit
CentOS7_CIS_benchmark	centos	2021-09-07 04:57:22 PM IST	✓ CSV
CIS_ubuntu_18	Select groups	2021-11-16 08:19:09 PM IST	✓ CSV
custom	Win10	2022-07-26 11:12:31 AM IST	✓ CSV
GEN_UBUNTU18	new_group5	2022-06-06 03:59:40 PM IST	✓ CSV
Test	Select groups	2022-06-27 03:09:57 PM IST	✓ CSV
win_10_gen_comp	Select groups	2022-06-29 04:41:17 PM IST	✓ CSV
win2k12_r2-NIST-800-171	Select groups	2022-02-07 03:19:21 PM IST	✓ CSV
win_10_PCI_benchmark	Select groups	2022-05-04 04:24:12 PM IST	✓ CSV

3. Click on PCI compliance to align with the standards.

Benchmarks Fix Mis-Configurations Rollback Automation Status

Create Benchmark

General Compliance NIST 800-53 Compliance NIST 800-171 Compliance **PCI Compliance** HIPAA Compliance

Windows 10 pci 3 2 compliance

Windows 2008 r2 pci 3 2 compliance

Windows 2012 pci compliance

Windows 2012 r2 pci 3 2 compliance

Windows 2012 r2 pci compliance

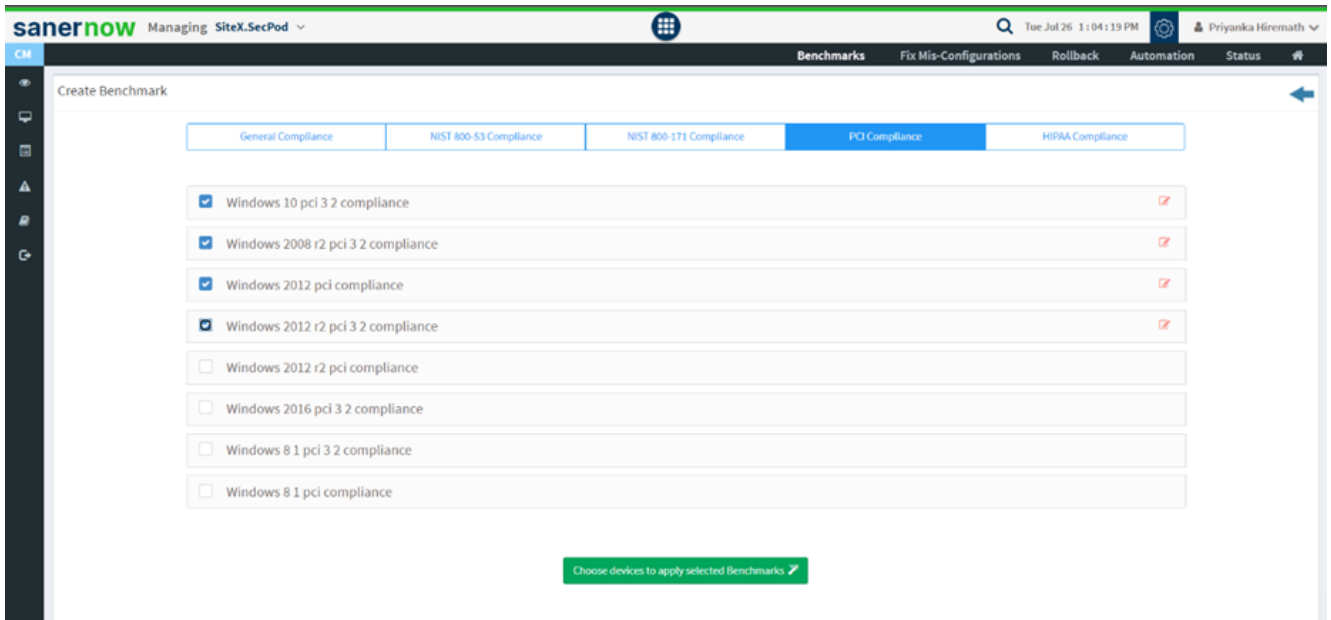

Windows 2016 pci 3 2 compliance

Windows 8 1 pci 3 2 compliance

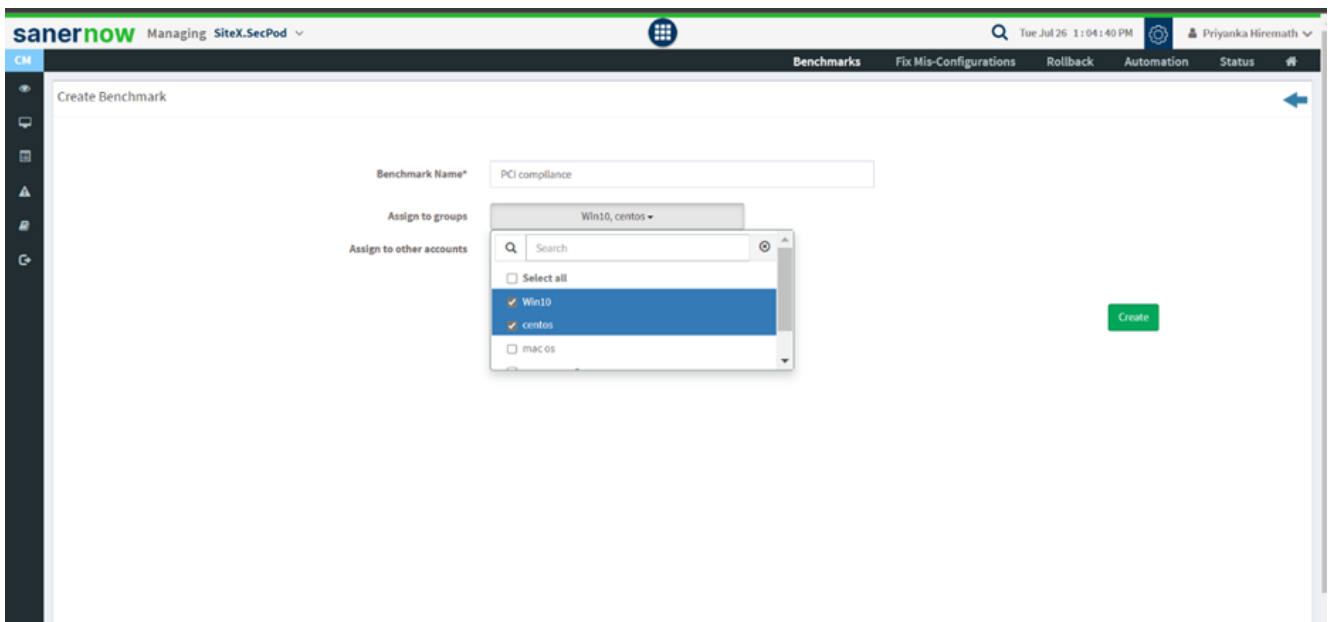

Windows 8 1 pci compliance

Choose devices to apply selected Benchmarks

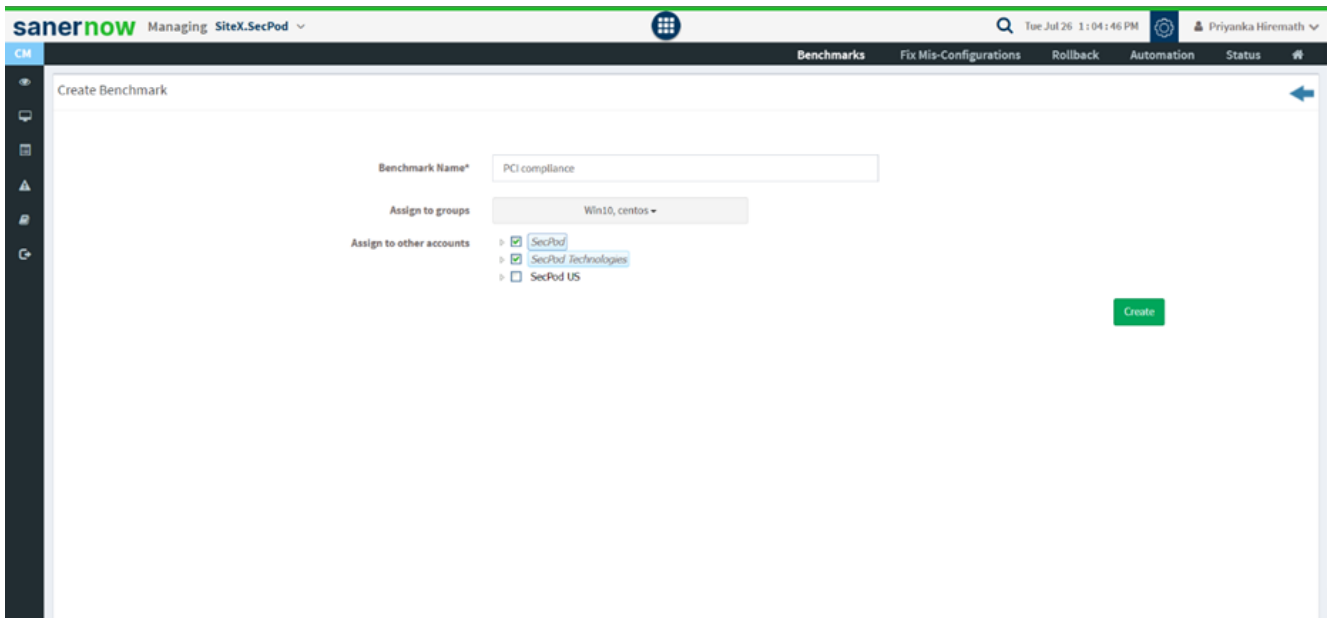

5. Select the standards and click on choose devices to apply selected benchmark.

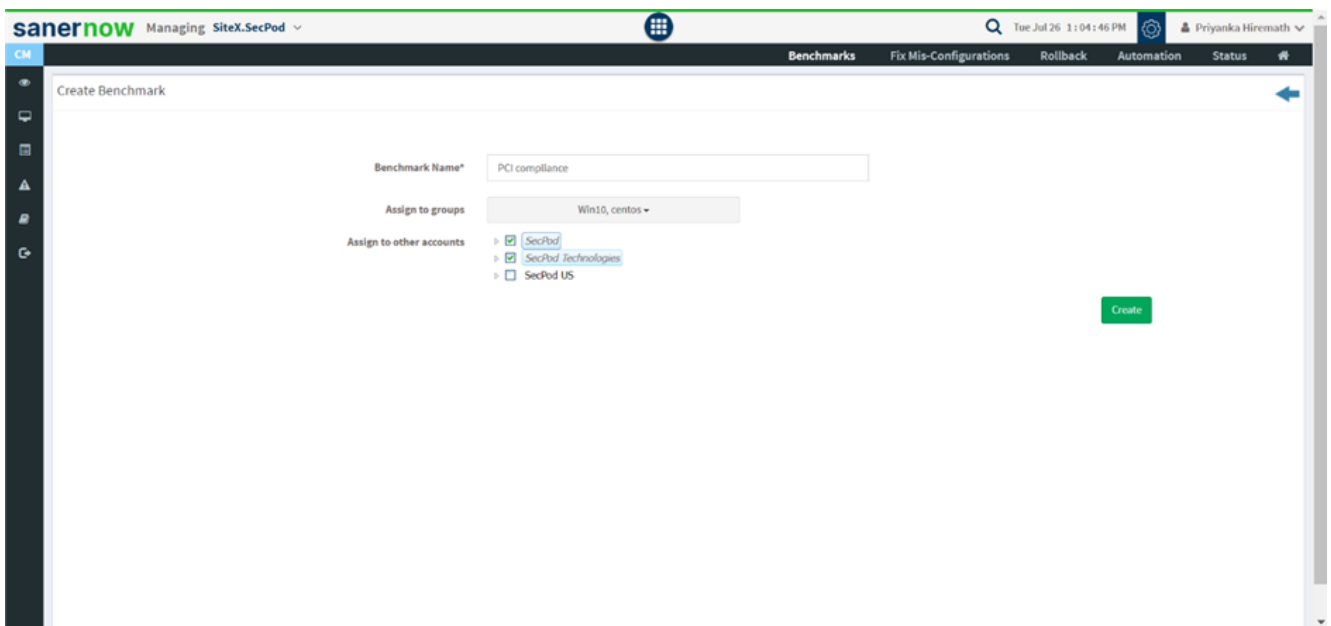

6. Assign the benchmark name and assign the groups from the dropdown menu.

7. Select the accounts to align with the HIPAA Standards.

8. Lastly, click on **Create**.

You are now successfully aligning with PCI compliance standards!
