

How to change subscription type in SanerNow

SanerNow allows two types of subscriptions for an Account.

- a. Auto Increment
- b. Custom

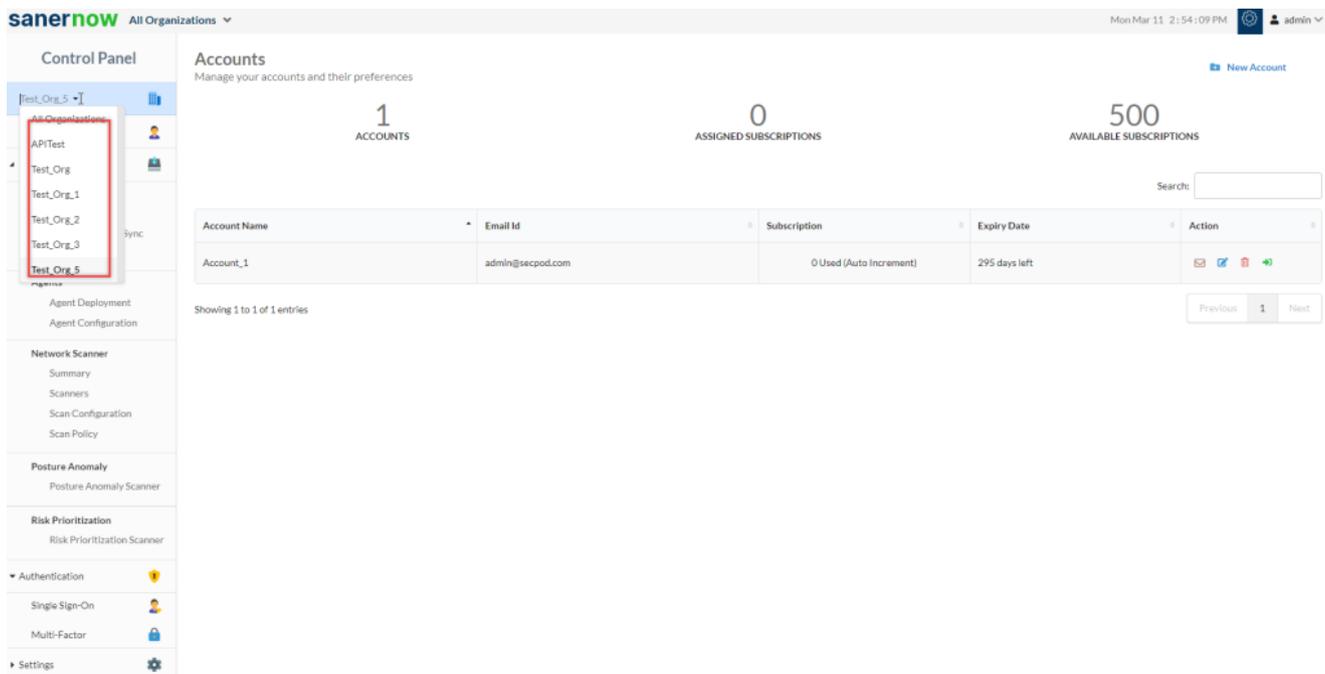

Auto Increment: In this type of subscription, the **Account** can increase the number of SanerNow Agent subscriptions as per demand from the total available subscriptions pool.

Custom: In this type of subscription, the **Account** is provided with a specified number of SanerNow Agent subscriptions. The **Account** can't fetch additional subscriptions if the number of SanerNow Agent subscriptions exceeds those assigned.

Follow the steps below to change the subscription type for an Account in SanerNow.

Step 1: Log in to the SanerNow web console as an **Org Admin**. Click the Control panel icon  located on the right side of the Unified Dashboard page.

Step 2: Click the drop-down menu on the left side of the page. Select the **Organization** to which the **Account** belongs.

The screenshot displays the SanerNow web console interface. At the top, it shows the 'sanernow' logo, 'All Organizations', and the user 'admin'. The main area is titled 'Accounts' and includes a 'New Account' button. Summary statistics are shown: 1 ACCOUNT, 0 ASSIGNED SUBSCRIPTIONS, and 500 AVAILABLE SUBSCRIPTIONS. A table lists the accounts, with one entry: Account_1, Email Id: admin@secpod.com, Subscription: 0 Used (Auto Increment), and Expiry Date: 295 days left. The left sidebar contains a 'Control Panel' with a dropdown menu for organizations, where 'Test_Org_5' is selected. Other sidebar options include Agent Deployment, Network Scanner, Posture Anomaly, Risk Prioritization, Authentication, and Settings.

Account Name	Email Id	Subscription	Expiry Date	Action
Account_1	admin@secpod.com	0 Used (Auto Increment)	295 days left	   

Step 3: All the **Accounts** mapped to the selected **Organization** are displayed on the right side of the page.

Step 4: Click the icon to **Modify Account Preferences**.

Step 5: The **Allowed Subscriptions** option box allows you to choose between the **Auto Increment** and **Custom** subscriptions type. By default, Accounts in SanerNow have an **Auto Increment** subscription type selected. If you choose the subscription type **Custom**, you must provide the number of subscriptions.

The value you provide in the **Custom** subscription text box should not exceed the total subscriptions available for the Account.

The total number of available subscriptions is shown in red above the **Allowed Subscriptions** option box.
